The Old Irving Park Community Clinic (OIPCC) is a free, volunteer-based primary care and behavioral health care facility. OIPCC was founded in 2007 by George Maltezos, LCPC and Dr. Charles Martinez on the belief that all people, regardless of socio-economic status, have the right to quality healthcare.

Our objective is to provide quality, free, culturally competent medical and behavioral health care in a dignified and respectful manner to uninsured and under-served adult individuals. OIPCC treats patients from the Chicago area primarily from the northwest side.

OIPCC believes in early treatment for medical conditions to decrease risk of long term complications. Patients are seen by appointment only. OIPCC is not a walk in clinic or emergency clinic.

**Services Provided**

- Primary care for adults including nutritional support and diabetes counseling
- Behavioral Health assessments and counseling
- Prescription Medication Assistance Program
- Routine lab work performed by a commercial lab paid for by the clinic
- Referrals to ‘in house’ specialists and other available medical facilities for consultation and treatment
- Many additional services are available through the clinic
