Science Club Summer Camp STEM Fellow

Openings: 4
Locations: True Value Club and Pedersen-McCormick Club (2 positions each)

Job Summary:
Serve as an embedded team member for a group of 25, third-grade youth during a 9-week summer science camp. The camp is organized by Northwestern University, with Northwestern staff and Chicago Public Schools teachers sharing instructional responsibilities.

Position Responsibilities
- Serve as camp counselor and leader for a group of 25, third grade youth.
- In collaboration with Northwestern staff, help lead science-themed lab activities for camp members.
- Support CPS teachers during weeks when they will be leading camp activities.
- Maintain accurate statistics, reports, daily attendance, and rosters.
- Develop and maintain professional relationships with schools and partner agencies to enhance service delivery.
- Attendance at all required staff meetings and trainings.
- Additional duties as assigned.

Qualifications
Education: High school diploma, college-level science coursework (biology, chemistry, etc.)
Experience: Knowledge and/or experience working with a non-profit youth development agency preferred.
Skills: Strong interest and enthusiasm for science education.

Environmental and Working Conditions
- Must have the physical, visual, and auditory ability to perform the essential functions of the job with or without reasonable accommodations.
- Working in a Boys & Girls Club environment during summer hours (9am-5pm).
- Must be able to actively participate and interact with youth, remaining alert and energetic for 8 hours.

Pay: $3,000 stipend
