Conceptual Framework Standards addressed in this sequence:
CF 1: Candidates demonstrate an understanding of a current body of literature and are able to critically evaluate new practices and research in their field.

Dispositions:
Each sequence and module in the Teaching and Learning with Schools and Communities Program (TLSC) focuses on several professional dispositions. Candidates are offered opportunities to receive feedback on their dispositional growth. The specific disposition or dispositions for each module are listed on this syllabus under module in which they are emphasized and assessed.

Dispositions Assessed in this Module
The teacher candidate commits to appropriate professional and interpersonal behaviors by...
D1 demonstrating that teaching is a complex practice with inherently political and ethical implications (9F)
D4 demonstrating professionalism and reflective practice in collaborating with teachers, students, administrators, families, and communities to improve achievement for all students. (9N) (IB)
D7 valuing and utilizing the unique identities and backgrounds of all students, families and communities as essential assets in learning environments. (9L, 9N) (IB)

Sequence Four Summative Assessment:
After completing the modules in this sequence, teacher candidates will engage in a structured interdisciplinary inquiry with specific connections to science and civic issues. Teacher candidates will have the opportunity to engage in both scientific and historical inquiry, while utilizing relevant literacy practices. This structured inquiry will highlight common themes between the disciplines of science and social studies that have local, national and global connections. It should also serve as a model for what teacher candidates will design later for their own students in Module 6.2.

Candidates will choose a topic of interest and importance to them to investigate. They will use the inquiry-based approaches of Modules 4.2 and 4.3 to investigate their particular issue of scientific and civic import, and they will pull on a range of informational texts and the skills of argumentation emphasized in Module 4.1, as well as in Modules 4.2 and 4.3. The goal of this assessment is to demonstrate a strong command of the content areas of
science and social studies and the skills of academic writing. The nonfiction notebook will be used to gather, record and organize acquired information and experiences.

School of Education Policies and Information

Conceptual Framework Standards

The School of Education at Loyola University Chicago, a Jesuit and Catholic urban university, supports the Jesuit ideal of knowledge in the service of humanity. We endeavor to advance professional education in the service of social justice, engaged with Chicago, the nation, and the world. To achieve this vision the School of Education participates in the discovery, development, demonstration, and dissemination of professional knowledge and practice within a context of ethics, service to others, and social justice. We fulfill this mission by preparing professionals to serve as teachers, administrators, psychologists, and researchers; by conducting research on issues of professional practice and social justice; and by partnering with schools and community agencies to enhance life-long learning in the Chicago area.

Specifically grounded in the overarching principles of Professionalism in Service of Social Justice, this module focuses on the policies and practices that impact the instruction and assessment of diverse students in urban schools, emphasizing the role of the teacher in making educational decisions and advocating for students. Additionally, candidates must demonstrate understanding of educational policy and critically evaluate practices in a variety of classroom and school settings.

Technology

Teacher candidates in Elementary Sequence Four will be expected to demonstrate evidence of professional technology skills. They will be expected to become competent with the range of technology at the school site, including interactive boards, their software, and school based curriculum software. They will also be required to effectively use Live Text software for core sequence assessments, and Inspiration software for organization of ideas for written response. Teacher candidates will also be expected to utilize a variety of websites including Sakai, ISBE, standards, informal partner websites and various professional sites. It is expected that teacher candidates will recognize the importance of developing a strong and continually renewed set of technology skills, and that they will promote access to these skills for all students with whom they and work.

Diversity

By focusing on teaching writing within diverse classroom populations, this sequence addresses multiple perspectives on the development and teaching of literacy, including language and learning diversity, including but not limited to: the diversity in students’ backgrounds (i.e., culture, language, ability) and classroom and school contexts (e.g.,
English language learners, instructional contexts for students with special needs). It is expected that teacher candidates in Sequence Four will recognize, respect and address all varieties of diversity, including linguistic diversity, in their learning and teaching environments. This will be demonstrated in their coursework and relationships with classmates and instructors as well as in emerging professional relationships and knowledge of professional planning and instruction with the administration, faculty, students and families at the school site.

**University Policies and Information**

**Academic Honesty:** Academic honesty is an expression of interpersonal justice, responsibility and care, applicable to Loyola University faculty, students, and staff, which demands that the pursuit of knowledge in the university community be carried out with sincerity and integrity. The School of Education's Policy on Academic Integrity can be found at: [http://www.luc.edu/education/academics_policies_integrity.shtml](http://www.luc.edu/education/academics_policies_integrity.shtml). For additional academic policies and procedures refer to: [http://www.luc.edu/education/academics_policies_main.shtml](http://www.luc.edu/education/academics_policies_main.shtml)

**Accessibility:** Students who have disabilities which they believe entitle them to accommodations under the Americans with Disabilities Act should register with the Services for Students with Disabilities (SSWD) office. To request accommodations, students must schedule an appointment with an SSWD coordinator. Students should contact SSWD at least four weeks before their first semester or term at Loyola. Returning students should schedule an appointment within the first two weeks of the semester or term. The University policy on accommodations and participation in courses is available at: [http://www.luc.edu/sswd/](http://www.luc.edu/sswd/)

**Harassment (Bias Reporting):** It is unacceptable and a violation of university policy to harass, discriminate against or abuse any person because of his or her race, color, national origin, gender, sexual orientation, disability, religion, age or any other characteristic protected by applicable law. Such behavior threatens to destroy the environment of tolerance and mutual respect that must prevail for this university to fulfill its educational and health care mission. For this reason, every incident of harassment, discrimination or abuse undermines the aspirations and attacks the ideals of our community. The university qualifies these incidents as incidents of bias.

In order to uphold our mission of being Chicago's Jesuit Catholic University-- a diverse community seeking God in all things and working to expand knowledge in the service of humanity through learning, justice and faith, any incident(s) of bias must be reported and appropriately addressed. Therefore, the Bias Response (BR) Team was created to assist members of the Loyola University Chicago community in bringing incidents of bias to the
attention of the university. If you believe you are subject to such bias, you should notify the Bias Response Team at this link: http://webapps.luc.edu/biasreporting/

**Module Sequence**

Week One: Teacher candidates are introduced to text types and purposes through personal writing and by reviewing writing activities and assessments in classrooms at a partner school. Teacher candidates will have experiences with:
- Writing to persuade (opinion writing)
- Writing to inform and explain (expository writing)
- Writing to convey an experience (narrative writing)
• Modes of writing: routine, analysis, research, narrative
• Role of audience
• Common Core State Standards for ELA (writing emphasis)
• Teacher candidates confer with the cooperating teacher educator to review the core writing curriculum.

Week Two: Teacher candidates focus on the routine production and distribution of writing within the classroom, which includes the incorporation of:
  o Routine opportunities for writing.
  o Technology to draft, collaborate and publish written work.
  o Supports for writers from diverse linguistic, cultural, or economic backgrounds as well as for students who struggle.
  o Responses to writing (conferring, conferencing collaborating).
  o Strategies to help writers revise their work.
  o Plans for the teaching and assessing of writing.
  o Attention to conventions of writing.
• Teacher candidates conduct an individual writing conference to provide support to a student(s) in his or her writing.
• Teacher candidates will identify a mentor text for use with a social studies or science unit in their classrooms and create a semantic map using software such as Inspiration for a computer or tablet to present key information in the text. Candidates will then write a summary paragraph, highlighting the main idea and details in the text.

Week Three: Teacher candidates focus on informational writing, using research to build knowledge, which includes the incorporation of:
  o Argumentation (writing with textual evidence).
  o Reading/writing connections and close reading.
  o Details of craft (analyzing content, citing evidence, rereading writing to edit and revise).
  o Processes of conducting research (literal and inferential comprehension, summarization, drawing conclusions, making connections across texts, attending to issues of craft in writing).
  o Inquire writing
• Teacher candidates teach a mini lesson that supports a writing task that is being completed in the classroom. Ideally, this will include the use of technology and a mentor text.

Week Four: Teacher candidates review classroom and school wide practices and take an in-depth look at the assessment of writing, which includes the incorporation of:
  o Rubrics, pre-assessments, and benchmark assessments.
  o Targeted writing interventions to address student needs.
• Teacher candidates will collaboratively write three rubrics (narrative, expository and persuasive writing) and develop one targeted to a writing assessment appropriate for use in their classrooms.
