COURSE DESCRIPTION: This course is the culminating experience in the reading teacher endorsement program. During this experience, teacher candidates will pull together all prerequisite experiences in this program and draw from them in clinical work at their internship or student teaching school site. The role of literacy specialist within a school will be explored in regard to professional and practical considerations. In accordance with new ISBE Reading Teacher Endorsement guidelines, teacher candidates will work to provide a data based instructional experience for two or more students in two or more grades (from their teaching endorsement grade level span) over the course of the semester by assessing, diagnosing, teaching and reviewing reading performance and growth. They will learn research based techniques for working with students who may be hard to teach and hard to reach. The Response to Intervention Framework will emphasize data based decision making and problem solving within a systematic response.

This course fulfills the goals and requirements for the ISBE Reading Teacher Endorsement. Updated IRA (International Reading Association) Standards are identified on the course assessment.

Required Texts:  

It is also highly recommended that all reading teacher candidates join IRC (Illinois Reading Council) as student members. This is valuable to include on your professional resumes.

Texts utilized from previous courses:  
1) Assessment resources used in CIEP 328:  
   McKenna, M.C., & Stahl, K.A.D. (2009). Assessment for Reading Instruction (2nd ed.).  
   New York: Guilford.
(The sample case study report is included in this resource along with valuable instructional and diagnostic assessments.)

2) Materials Text:

In addition to this, there will be articles and resources posted on the Sakai course website.

Teacher Candidates will be required to utilize the Live Text Software for the completion of the Reading Teacher Practicum Portfolio.

Each community member should demonstrate respect for the rights of others. [www.luc.edu/ethicsline](http://www.luc.edu/ethicsline)

**Conceptual Framework**
Teacher candidates in CIEP 359 will be expected to demonstrate “professionalism in the service of social justice” in course and clinical experiences. This will be evidenced by developing and displaying a personal set of knowledge, skills, ethical behavior and contribution to service in class and particularly in pre-professional experiences at the clinical school site. Knowledge of literacy concepts, curriculum, instructional strategies and practices based on best practices; development...
of instructional skills; honest, fair and respectful treatment of others; and commitment to serving others beyond what is required will be expected. The significance of providing access to literacy skills to all students and all populations will be emphasized. The following CF standards will be assessed in the CIEP 359 Core Assessment: Literacy Lesson Plan, which will be created and taught at the clinical site.

**Technology**
Teacher candidates in CIEP 305 will be expected to demonstrate evidence of professional technology skills. This will be evidenced in effective use of Live Text software for the development of tutoring lessons along with official reflections and recommendations. Teacher candidates will also be expected to utilize a variety of websites including Sakai, ISBE and literacy related professional sites. It is expected that teacher candidates will recognize the importance of developing a strong and continually renewed set of technology skills and that they will promote access to these skills for all students with whom they teach.

**Diversity**
It is expected that teacher candidates in CIEP 305 will recognize, respect and address all varieties of diversity in their learning and teaching environments. This will be demonstrated in their coursework and relationships with classmates and instructors as well as in emerging professional relationships and knowledge of professional planning and instruction with the administration, faculty, students and families at the practicum experience school site.

**Electronic Communication Policies and Guidelines**
The School of Education faculty, students and staff respect each other’s rights, privacy and access to electronic resources, services, and communications while in the pursuit of academic and professional growth, networking and research. All members of the university community are expected to demonstrate the highest standards of integrity, communication, and responsibility while accessing and utilizing technology, information resources, and computing facilities. A link to the Loyola University Chicago and School of Education official policies and guidelines can be found at:
http://www.luc.edu/media/lucedu/education/pdfs/SOE_Cyberbullying_Policy.pdf

**IDEA Course Evaluation Objectives**
Course evaluations for this course will be completed online beginning this semester. The goals of CIEP 305 are primarily to support candidates in:
3. Learning to apply course material (to improve thinking, problem solving, and decisions)
4. Developing specific skills, competencies, and points of view needed by professionals in the field most closely related to this course
9. Learning how to find and use resources for answering questions or solving problems

**Course Outcomes**
This Practicum is designed to develop and enhance reading teacher candidates’ competencies as ethical professionals in the following areas:
- Demonstrate knowledge of reading and writing and their foundations as complex, interactive, and constructive processes.
- Compare, contrast and analyze information and assessment results, including formal and informal tests and inventories, to place a student along a developmental continuum and to design instruction.
• Communicate assessment results to specific individuals such as students, parents, and other teachers through clear and concise reports.
• Work with colleagues to observe, evaluate, and provide feedback on each other’s practice.
• Use a variety of appropriate methods, materials, and research for literacy learning including technology to motivate students, meet their educational needs, and create lifelong learners.
• Create appropriate instruction considering differing cultural, linguistic, and special needs backgrounds of students and parents.
• Demonstrate professional and ethical behavior related to reading diagnosis/instruction.

In this Practicum, you will work to apply reading diagnosis and assessment techniques to problem solve students’ reading problems. Continuing the practicum sessions you began during the fall of 2014, you will work with two or more students at a second grade level over four additional required one-period tutoring sessions and work collaboratively with one of the students’ reading teachers. The administration of the interest inventory with the second group of students may not be considered intervention time.

The purpose of the practicum experience is to develop expertise in diagnosing, assessing and implementing strategic literacy instruction for struggling readers. Once assessments and data are analyzed, you are expected to develop a strategic instructional plan to support students’ specific literacy development and reading success.

Part of the course grade will involve your decision making in selecting appropriate formal and informal materials to provide evidence for your instructional plan. At the conclusion of the tutoring sessions, you will write a full case study report (as is demonstrated in the CIEP 328 course resources) and present this to the student’s teacher. You will also present your work to the rest of the practicum candidates in a visual media presentation on the on campus session.

Note: All practicum sessions MUST be held outside of/in addition to regular classroom instruction. Candidates may not qualify for ISBE endorsement if they simply modify/differentiate student teaching lessons and use them to fulfill this requirement.

**Assignments:**
**Individual tutoring – eight hours of work directly with students**

**Case Study and Rubric:**
For this case, you will work in small group and individual instruction with struggling readers to assess and coach these students during the eight required sessions. For some of the sessions, you will be collecting assessment data, coaching the students as they read or respond to texts in spoken or written formats, or doing both. After all the sessions are completed, you will compile your case study, prepare your case report, and present the case to the class at the end of the
semester. The final technology presentation will include anonymous student artifacts that you have collected during the sessions, your interpretation of the data, and your description of the targeted instruction and results of student growth over the course of the tutoring.

**Final Presentation:** The reading teacher candidate will determine a question that they have tried to find answers to during the course of their work with a struggling reader(s) during the instructional session. This question will be the focus of the power point presentation and discussion. The PLC will engage in discussion about this question and student. The power point should be limited to 5 to 7 slides and the primary emphasis should be on discussion (March 23rd/April 20th session).

**Case Study Portfolio:** Work on this project will be submitted in a “portfolio” on Live Text. Although some elements will be required to be uploaded earlier, such as the lesson plan in the course Sakai dropbox, the final project will be due on Live Text on the evening of the final course.

The following segments of the case study will be submitted on Live Text by the following dates. Extensions will only be provided if requested in advance and when circumstances merit them.

Initial assessment data including background/research information—Jan. 26th
Problem solving plan and schedule—Jan 26th
Case Presentation: March 23rd
Final Report: Due on Live Text by April 20th

**Weekly Online Postings:**
Articles related to Discussion Topics have been posted in the Resources Folder on Sakai. Candidates will be required to respond in 40 – 75 word comments in response to Discussion Topics posted on Sakai on by the following dates:

February 3rd
Feb. 17th
March 17th
March 24th
March 31st
April 14th
* Comments may be posted by the Tuesday following each class session. They will not be accepted after this. Comments are assessed in the participation rubric and are considered to be class attendance.

**Research Article Presentation:** Reading teacher candidates should use the LUC library search resources to locate a research article of their choosing from the last five years (2010 – 2014) that addresses a personally relevant topic related to reading or writing. This article should be read and analyzed according to the guidelines on the rubric. The presentations will be given in class sessions and will last no more than 15 minutes. Complete references to both the article and a follow up article should be included. This presentation should be posted in the forum on Sakai for other classmates to view.

**Course Grading:**
The grade for this course will be based on the elements below. Due dates for all phases of the practicum are listed. In order to receive full points for each section, work must be completed
when due or alternative arrangements must be made with the professor in advance of the due date.

Individual elements of the course case study will be assessed on this rubric throughout the semester. This rubric will be available both on Sakai and on Live Text, where the assessment scoring will be published and available for individual candidates.
