Testimonials

“Not only are there articles about the current technology trends, but also research tools that further my understanding of these trends.”
– Shirin Precht, Student

“Use Gartner to learn about technologies and technology vendors. I use it to better understand where technology is heading and how other companies and schools are using technology.”
– Bruce Montes, Director, Academic Technology Services

“All the students who have ever used Gartner materials and/or consulted a Gartner analyst were amazed at how much useful information they could find out in a short amount of time.”
– Gezinus Hidding, Associate Professor Quinlan School of Business
