Requirements to Connect an Apple Device to an Apple TV

1. Must be running iOS 7 or newer.
2. Must be equipped with Bluetooth 4.0.

Connecting an iPad or iPhone

1. Register your device on the Loyola Network. Check to make sure the device was registered correctly by opening a web browser and navigating to a new web site.
2. Make sure to enable both WiFi and Bluetooth by swiping up from the bottom of the screen to access the Control Center.

3. It is highly recommended that you turn on Do Not Disrupt in order to eliminate any messages or alerts from appearing on the screen. Do Not Disrupt can also be enabled through the Control Center.
Connecting to an Apple TV for Students

Connecting a Mac

1. **Register** your device on the Loyola Network.
   Check to make sure the device was registered correctly by opening a web browser and navigating to a new web site.

2. On the Taskbar, click on the Bluetooth icon and select **Turn Bluetooth On**. The Bluetooth taskbar icon will then appear black in color.

3. It is highly recommend that you turn on **Do Not Disrupt** in order to eliminate any messages or alerts from appearing on the screen. **Do Not Disrupt** can be enable through the **Notification Center**.
   a. Press the **Option** key and select the **Notification Center** icon from the taskbar.
   Once enabled, the **Notification Center** icon will appear gray in color.
