Start, Stop, and Pause your Recording

1. Select **Record** to begin your recording. Once your recording has started, the button will change to **Pause** and **Stop**.

![Record, Pause, Stop buttons]

2. If you select **Pause** to pause your recording. Then, the **Resume** button will appear. Select **Resume** to continue your recording.

![Resume button]

3. Select **Stop** to end your recording.

**Note:** If you are using screen capture, and do not want the Panopto recorder visible during the recording, you have the option to use hot keys:

- **F8** – Start the recording
- **F9** – Pause the recording
- **F10** – Stop the recording
