Please only fill out and return if you plan to present at the upcoming EIW and if you have completed or are in your third term or beyond.

As you know, you will be writing your MJ thesis during your last term in the Online MJ in Health Law Program. In order to be prepared to write during the last term, we ask that all students present their thesis topics after they complete their first year in the program. This can be done via conference with one of our online faculty. This can be set up via phone or, for those in the area, in person.

Although you will receive input, you need to come to this meeting having done some background research. This will include a minimum of five research sources. In the spaces below, please list those research sources and include few sentences indicating what you found in each source.

Your Name ______________________________________________________________

Month/Year you entered the program________________________________________

Month/Year you will present final Thesis____________________________________

Thesis topic________________________________________________________________

________________________________________________________________________

________________________________________________________________________

________________________________________________________________________

________________________________________________________________________

________________________________________________________________________

Please list your research sources and findings on pages two and three.
