Course description:

This course is designed to teach the fundamentals of basic technology used by journalists to report events and tell stories. That includes writing on deadline, using social media and learning several tools of the trade.

By the end of the semester you should feel confident using a variety of technologies to create well-written and well-produced stories across platforms. The overall goal is to gain exposure to different mediums and technologies so that you will be able to make good decisions about the best way(s) to tell a story and what path you might like to pursue within journalism.

Course materials:

- Associated Press Stylebook (recent print copy or app OK)
- Course readings/viewings will be available online
- External hard drive/flash drive
- Audio recorder, camera, video recorder (can borrow from Loyola or use your own)

Occasionally, there will be additional assigned readings, videos or audio stories related to current events or guest speakers, which I will send to you via email at least one week in advance.

For photo, audio and video assignments you may use your own equipment (including the recorder or camera on your cell phone/tablet) or borrow equipment from Loyola. Audio recorders and digital video cameras (Kodak Zi8 and Zi12) for this course can be checked
out from the Owl Lab in SOC 004. Some tools may be checked out through Loyola’s equipment loan program. A list of software available in the digital media labs is available here.

Though some of these technologies may be new to you, it is up to you to troubleshoot as best you can if you are having problems. If you require additional assistance using any equipment or software, you can contact me, visit/contact the Owl Lab or visit/contact Loyola’s Digital Media Services.

Course policies:

Attendance: Absences may be excused due to emergencies, serious illness/injury, a religious observation or because you will be attending an event as a representative of Loyola (athletics, debate, model government, etc).

Please make every effort to notify me at least 24 hours in advance of your absence. To be excused, you must provide documentation explaining your absence by your first day back in class. (Acceptable documentation depends on the circumstance. Examples include: note from doctor or nurse, receipt of medicine you purchased, obituary, copy of memorial program, etc.) If your excuse is valid, you may make up whatever you missed. Unexcused lateness or absences will result in a lower class participation grade, in addition to zeros on missed in-class assignments.

Deadlines: In this class, you will be treated like a working journalist. Deadlines are extremely important. Late assignments will receive point deductions.

• Up to one hour late = grace period
• Every 12 hours an assignment is late = 5 points off

Style: We’ll be following AP style in this course. Errors in style, grammar, spelling and facts will result in point deductions.

Academic integrity: You cannot copy someone else’s writing, audio, video or visuals from the Internet or any other source without proper attribution. Any use of another journalist’s work should be limited and clearly warranted in your story. At all times possible, a link to the original work should be provided.

Make sure to consult with me and your other professor(s) before attempting to submit work with similar or overlapping content. It may be permissible to cover a similar topic for more than one course if: 1) the stories are in different formats (such as audio and print), and 2) the professors know about and approve of the arrangement.

Plagiarism and cheating will not be tolerated. Committing plagiarism results in an automatic “F” for that assignment, though depending on the severity of the case it can also result in an “F” for the course. All instances of academic dishonesty are reported to the journalism section head and the dean of the School of Communications. Cheating will result
in similar low grades. In journalism, you cannot invent quotes, facts or other material. I will occasionally check to verify that you have interviewed people you’ve listed as sources for your work.

Special needs: If you have a special circumstance that may impact your course work and for which you may require accommodations, please contact me as soon as you can so arrangements can be made with Services for Students with Disabilities (SSWD). I will accommodate your needs in the best way possible, given the constraints of course content and processes. It is your responsibility to plan in advance in order to meet your own needs and assignment due dates. Additional information about the services available at Loyola, including eligibility for services, can be found on the SSWD website.

Email: I try my best to respond to questions via email as quickly as I can, but I please keep in mind I am a working journalist with a full-time job (and deadlines of my own!) Please allow up to 24 hours for a response, especially on weekdays. If it’s an emergency, you may call my cell phone (number listed at top of syllabus).

Professionalism: For this course you’ll likely be using your laptop/phone/tablet to do research, complete in-class assignments and take notes. Using technology for purposes unrelated to class will result in a lower class participation grade.

Class participation: Contributing to class discussions, presenting your work and asking questions of guest speakers all factor into your class participation grade.

The grading scale for class participation is as follows:

A (100): Student often contributes to class discussion, provides meaningful insight and demonstrates knowledge from readings.

B (86): Student often contributes to class discussion and provides meaningful insight.

C (76): Student occasionally participates in class discussion.

D (66): Student only participates when called on.

F (0): No class participation.

News presentations: Each week, one or two students will lead a 15-minute discussion at the start of class about a recent news story related to journalism and technology. You are expected to email any relevant links at least three days in advance of your presentation (by Friday evening) to your classmates and I.

In class, you’ll present a summary, why you think it’s relevant to our course and bring at least five questions that you will ask your classmates to encourage discussion. Articles about controversies and ethical questions often make for good discussions. This presentation will factor into your class participation grade.
Examples of sources to consult include, but are not limited to: Poynter, Wired, Nieman Journalism Lab, the public editor’s blog at the New York Times, the On the Media radio program and podcast from WNYC, the Gimlet podcast Reply All, PBS Mediashift and the Columbia Journalism Review.

Publishing your work: You’ll be posting assignments on your own website and on sites run by Loyola throughout the course. (I’ll edit your work before it’s posted to any Loyola websites.)

To receive the highest score, your posted work will include an SEO headline, hyperlinks where appropriate, and a photo or video with credits and captions. You are expected to follow AP Style and standards rules of grammar/spelling/punctuation.

Grading breakdown:

For each graded assignment, we’ll tackle a new format, technology or reporting skill. You’ll receive detailed feedback aimed at helping you to improve throughout the course.
