Checking Your Graduation Status:

1. After signing in to LOCUS, click on the “Academics” tab of the Enterprise Menu.

2. In the Academics Tab, Click “View Graduation Status”.
3. You will see a screen like this that includes your application status, your diploma name, and your diploma address.

Please note: your application status will change during the latter portion of your expected graduation term, listed below your status. In the example provided, the student’s status is “Applied for Graduation”. During the Spring 2016 term, this status will change following a Graduation Audit. Assuming all requirements have been met, graduation status will change from “Applied for Graduation” to “Approved for Graduated”. When your degree has been conferred, your status should change to “Awarded”. Language may differ.
