Hoa Bich Nguyen, PhD, is an Environmental professor at the Vietnam Center.

Dr. Nguyen is originally from Ho Chi Minh City. She studied in the United States for many years and received her Ph.D. in Molecular Biochemistry from Indiana University, School of Medicine in 2012. Her graduate thesis focused on the signaling pathways in cervical cancer that are caused by Human papillomavirus. Dr. Nguyen has returned to Vietnam and has been co-teaching the environmental course with Dr. Babcock since 2013. Her current interest is in water treatment and management in Vietnam, which is a country with massive population growth and rapid urbanization.
