**PROGRAM HIGHLIGHTS**

Learn about contemporary initiatives in the field of sustainability and sustainable practices in one of the world’s most progressive countries in this field and explore contemporary projects that are currently going on in Bonn and the surrounding area.

Experience through lectures, exercises and study tours, the various layers of sustainability in areas such as transportation, energy, waste management, city systems, urban design, brownfield conversion and land use.

Transform your worldview about climate change and what it means to be a sustainable communication with Loyola faculty members from the Institute for Environmental Sustainability, the School of Communication and AIB Bonn as your instructors and program leaders.
Bonn, Germany  Summer Global Faculty-Led  
May 18-June 24, 2016

PROGRAM DESCRIPTION:  
Bonn, Germany is a city committed to comprehensive, sustainability goals and headquarters for NGOs that respond globally to the effects of climate change, which makes it the ideal setting for this program. Hosting WHO, United Nations and Local Governments for Sustainability, Bonn provides a strong base for studying how climate change issues are communicated to politicians, scientists and global audiences. Students will study the tools and techniques for sustainable urban design, and methods for communicating these plans to various audiences. Studies include a 5-day excursion to Berlin, studying sustainable water management, urban planning and architectural initiatives and field trips in Bonn to solar plants, energy efficient buildings and NGOs.

COURSE TITLE:  
Students on this program will take two courses:

ENVS 398/COMM 371: Communicating Climate Change  
ENVS 281G: Environmental Sustainability in Germany  

Prequisities: ENVS 137 or instructor permission

COURSE INSTRUCTORS:  
Elizabeth Coffman, PhD  
Associate Professor of Communication

Elizabeth Coffman is a documentary scholar and filmmaker who has produced films on environmental topics. She is currently co-producing a media project on sea level rise and the response from the city of Venice, Italy. She is also co-producing a documentary on U.S. writer Flannery O’Connor.

Tania Schusler, PhD  
Lecturer & STEP Coordinator in IES

Tania Schusler is a social scientist and faculty in Loyola’s Institute of Environmental Sustainability. Her scholarship focuses on understanding the dynamics of participation and learning in creating more sustainable, resilient, and just communities at a local/regional scale.
