When & Where to Study Abroad

Students majoring in Women’s Studies and Gender Studies (WSGS) have flexibility when and where they can study abroad. Spring semester of sophomore year and junior year are the best times to study abroad. Students can take a mix of WSGS elective courses, Core classes, Engaged Learning, and general electives abroad. Specific to the major, students cannot take WSGS 391 or 399 overseas. The WSGS internship can be fulfilled, as long as the service-learning component is in line with the major.

Programs with course offerings in Women’s Studies and Gender Studies

Global Exchanges
- Seoul, South Korea

Global Partners

Jesuit Universities
- Cape Town, South Africa (Marquette University)
- Madrid, Spain (Saint Louis University)
