OVERVIEW
Anthropology is the study of the diversity of humankind through time and across the globe. The scope of anthropology is vast, and is divided traditionally into four subfields, each contributing distinct perspectives on the question, “What makes us human?” Anthropology is a discipline that uniquely bridges the social and natural sciences. Cultural anthropology investigates contemporary human cultural diversity and social institutions. Linguistic anthropology focuses on language and its interrelationship with culture. Biological anthropology explores the physical aspects of primate and human life, past and present, and archaeology seeks to understand the past through excavation and analysis.

CURRICULUM
Twelve courses in anthropology, totaling 36 credit hours, are required for the completion of the BA and BS in Anthropology. Students seeking to major in sociology and anthropology are required to take twelve courses within the two departments. A minor in anthropology requires the completion of five courses within the department—two 100-level courses and three 200- or 300-level courses. For a complete list of degree requirements and courses that fulfill each program, visit LUC.edu/anthropology.

CAREER OPPORTUNITIES
Training in anthropology promotes a wide and comprehensive understanding of human life and society. A degree in anthropology provides an excellent foundation for many careers: international relations and business, law, medicine, environmental protection, multicultural program development, museum curation and management, social services, and community planning, and provides a foundation for graduate study in a wide array of disciplines.

RESOURCES
The department offers special resources for students, including a biological anthropology teaching laboratory; archaeology laboratory; anthropometric, photographic and bioplastic research material; a student research collection of cross-cultural materials; and an extensive collection of comparative anatomy materials. There is also an active Chardin Anthropology Club which organizes anthropology-related activities, guest speakers, and field excursions for interested majors and minors.
ARTS AND SCIENCES

Anthropology (BA, BS)
Art History (BA)
Biochemistry (BS)
Bioinformatics (BS)
Biology (BS)
Ecology
Molecular Biology
