PREFACE

This descriptive inventory is the fourth in a series of finding aids describing the records created by the American communities of the Religious Hospitallers of St. Joseph’s St. Joseph Province.

Similar finding aids were prepared by Archivist Paul Banfield for the Province’s Canadian communities of St. Catherines, Ontario, and Chatham, New Brunswick, in 1987 and 1989 respectively. An inventory for the community of Cornwall, Ontario was completed by Archivist Michele Chittenden in 1991. Archivist Heather Gordon completed an inventory for the Antigo, Wisconsin community in 1993.

It is the aim of St. Joseph Province Archives to prepare similar finding aids for the American communities of St. George Hospital, Chicago; New London, Wisconsin; Hartford, Wisconsin; and Polson, Montana. As was the case with the St. Bernard community, archival material from each of these American houses has been transferred to the Provincial Archives at Amherstview for arrangement and description. With the completion of each inventory (the exceptions being those for St. George, Hartford and Polson), the material will be returned to the local archives at its place of origin.
RECORDS DESCRIPTIONS

00.000  St. Bernard's School of Nursing fonds. -- November 1905-July 1975.

2.3 m of textual records
340 photographs

ADMINISTRATIVE HISTORY:
St. Bernard's School of Nursing was founded in 1906 and dissolved in 1975. Incorporated by charter on 7 February 1906, St. Bernard's Hotel Dieu Training School for Nurses provided theoretical and clinical instruction in nursing science until its closure in 1975. Popularly known as St. Bernard's School of Nursing, the School graduated its first class of 16 lay women and five religious in June 1909, and, over the course of next 66 years, graduated over 1500 nurses.

In 1913, the School affiliated itself with Loyola University for the purpose of offering extension courses. In 1935, association with the University was cemented with the amalgamation of St. Bernard's, St. Anne's, St. Elizabeth's, Oak Park, and Columbus Hospitals Schools of Nursing to form the Loyola University School of Nursing. A three year curriculum was approved by the School of Nursing's Administrative Board in June 1935 and in November 1937, the School of Nursing established a five year program leading to a Bachelor of Science degree in Nursing. In 1942, the School established affiliation with the Illinois State School of Psychiatric Nursing and the Municipal Contagious Disease Hospital, the latter relationship terminating in December 1952. In 1944 the School established psychiatric nursing affiliation with the Veterans Administration Hospital at Hines, Illinois, and in 1950 established tuberculosis nursing affiliation with the same institution. On 1 February 1949, what had come to be known as Loyola University School of Nursing, St. Bernard's Unit was renamed St. Bernard's Hospital School of Nursing. The School retained some course affiliation with Loyola, but was no longer under the University's administrative umbrella. In 1954, the School established affiliation in obstetrical nursing with the Chicago Maternity Center. In 1951, the School sought accreditation status from the National Nursing Accrediting Service, achieving full accreditation from the organization in 1958.

Mary L. Long, a lay nurse, served as the School's first director. In 1909, Sister Alice Burns was appointed to this position and was succeeded by Sister Helen Jarrell in 1917. Sister Jarrell remained Director of the School until August 1935, at which time she was named Director of the newly created Loyola University School of Nursing. In 1939, she became Dean of the Loyola School, retiring as Dean Emeritus in 1948. Sister Bridget Creighton became Director at this time, but left office in February 1950 to pursue a Masters Degree in Nursing at Catholic University in Washington, D.C. Sister St. Joseph (Charlotte Peacher) served as Acting Director until Sister Creighton returned in February 1952. She remained...
in office until her death in August 1961, at which time Sister St. Joan of Arc (Elizabeth Peyton) was appointed Director. Upon Sister's appointment as Administrator of St. Bernard Hospital in August 1962, Sister St. Gerard (Elizabeth Fitzsimmons) became Director, followed by Sister Dolores Kane in June 1973. Sister Kane left for an assignment in Hartford, Wisconsin in 1970, leaving Assistant Director Ita Murray as Acting Director of the School until her retirement in July 1974. Since, by this time, the decision had been made to close the School, a new director was not appointed to replace Miss Murray.

On 13 November 1928, a new nurses' residence was dedicated. In 1974 the School itself was torn down to make way for the 1976 wing of St. Bernard Hospital. Those students still enrolled in the School received the remainder of their theoretical training in quarters provided in a nearby convent. 

CUSTODIAL HISTORY:
Following the closure of the School of Nursing, the records remained in the custody of the Religious Hospitallers of St. Joseph's St. Bernard Community. In 1986, 2.5 metres of records were transported by car to St. Joseph Province Archives at Amherstview.

SCOPE AND CONTENT:
The fonds consists of the records generated by St. Bernard's School of Nursing between its opening in 1905 and its closure in 1975. The fonds contains a relatively large subject correspondence series belonging to the Director of the School of Nursing. It also contains minutes of meetings, records of student grades and attendance, an admissions and withdrawals register, photographs, yearbooks and some miscellaneous material. For the most part, it has been possible to reconstruct the original order of the records. Most of the series proved to be distinctive, with the exception of the photographs and miscellaneous series. The arrangement of these two series was imposed by the Archivist.

The fonds consists of nine series: Subject correspondence, Minutes of meetings, Student records, Roll call registers, Nursing service registers and daily time books, Admissions and withdrawals register, Photographs, Yearbooks, and Miscellaneous.

NOTES:
Title based on contents of the fonds

1 Compiled from “St. Bernard’s School of Nursing, Chicago, Illinois: significant historical developments,” St. Bernard School of Nursing fonds, series 01.000, file 01.094; and “A summary of accreditation at St. Bernard’s School of Nursing,” St. Bernard School of Nursing fonds, series 01.000, file 01.094, and with the assistance of Sister Kane, RHSJ.
No further accruals are expected

Other records relating to St. Bernard School of Nursing can be found in the Office of the Provincial Superior fonds and Sister Helen Jarrell's personal papers located at St. Joseph Province Archives, Amherstview. The St. Bernard Hospital Community fonds (93.2) and St. Bernard Hospital fonds (93.4) located at St. Bernard Convent also contain records relating to the School.

LOCATION: St. Bernard Convent, Chicago

01.000 Subject correspondence. -- October 1932-July 1975; (predominant 1962-1973).

94.0 cm of textual records

This series, by far the most physically extensive in the fonds, consists of the records accumulated by Ita Murray during her time as Acting Director (1971-1974) and Associate Director (ca. 1958-1971) of St. Bernard's School of Nursing. Most of the records take the form of correspondence, but the series also contains memoranda, minutes, reports, by laws, programs and invitations, handbooks, School and Hospital newsletters, survey results, class and rotation schedules, School calendars, organization charts, student performance evaluations, employment and affiliation contracts, and job descriptions. Topics addressed in the records include accreditation, admission requirements, curriculum evaluation and development, school and student finances, capping and graduation ceremonies, school policies and directives, inservice education, and student discipline. The records also reflect the School's relationship with the federal Department of Health, Education and Welfare and the state Department of Registration and Education; with professional associations such as the American Nurses Association, the Illinois Nurses Association, and the National League for Nursing; and with facilities offering affiliation programs, including the Chicago Maternity Center, Jackson Park Hospital, the Cordi-Marian Settlement Nursery School, Betty's Nursery and Kindergarten, the Saint Euphrasia Day Nursery, Jacksonville State Hospital, and the Veterans Administration Hospital at Hines, Illinois.

Title based on contents of the series

Handwritten

Typescripts and some printed matter, some signed (some carbon copies, mimeograph copies, and photocopies)

Examination of the labels on the original file folders revealed that the files most likely were arranged alphabetically by subject. For example, files with titles beginning with 'c' were grouped together, followed by files with titles beginning with 'd'. The groups of files corresponding to a single letter of the alphabet, however, were not always filed alphabetically (i.e. 'D' after 'c', 'e' after 'd', etc.).
The Archivist assumed that this disorder occurred as a result of the records' custodians packing and repacking the files between the time they were removed from the School of Nursing and the time of their transfer to St. Joseph Province Archives, and therefore was not a manifestation of the series' original order. Consequently, those files obviously misfiled were refiled alphabetically by the Archivist, with care taken to disrupt as little as possible the order within groups of files with titles corresponding to a single letter.

02.000 Minutes of meetings. -- [after January 1946-May 1972.

9.0 cm of textual records

This series consists of the minutes of meetings of various boards and committees associated with St. Bernard's School of Nursing. One file contains a mimeographed set of minutes of meetings, in very poor condition, of Loyola University's School of Nursing's administrative board. Minutes of St. Bernard's School's advisory committee and faculty meetings exist for the years 1950-1956 and 1951-1956 respectively. No minutes for meetings held between July 1956 and December 1958 appear to have survived. Minutes of meetings of the advisory council, curriculum committee, faculty, scholarship committee, and student council, among others, held between 1959 and 1962 have survived, being maintained in two post binders and arranged alphabetically by name of committee. The last file in the series contains the minutes of the meetings of the Ad Hoc Committee on Nursing Needs and Resources held between March and May 1972 which discussed and ultimately recommended the phasing out of the school of Nursing.

Most of the files in this series have been restricted due to the inclusion of student evaluations in the minutes.

Title based on contents of the series

Handwritten

Typescripts (some mimeograph copies)

The mimeographed minutes of the Loyola School of Nursing administrative board have been photocopied and the copy placed in the file

The Loyola file was transferred as part of accession 92.40

The files were brought together and arranged chronologically by the Archivist

03.000 Student records. -- 1906-1943.

24.0 cm of textual records

This series consists of three hard cover bound registers and 12 files in which student grades are recorded. There is a separate record for each student. Each record contains biographical information, grades received in preliminary, first, second and/or third year courses, and the number of hours devoted to each course. Up to 1937, the records include information regarding each student's high school credits and the names of each nursing school course's instructor; up to 1934, the records include subjective performance remarks as well. The three registers, which document the period 1906-1933, contain student records arranged more or less chronologically by the date the student entered training. Unfortunately, the entries in the first register (1906-1919 contain names and biographical date, but very few grades. Furthermore, the entries in this register are readable only with difficulty, since, at some point, someone attempted to erase the ink with which the entries were written, possibly in order to reuse the register. The 12 files contain unbound student records arranged more or less chronologically by date of entrance. Each file contains the records for a single graduating class.

Title based on contents of the series

Handwritten entries

Some typewritten entries

The three registers were encased in jackets made from brown wrapping paper, probably in the 1940s or 1950s

The Archivist arranged the registers chronologically according to the earliest date in each register and the files chronologically according to the graduating year of the students

04.000 Roll call registers. -- September 1914-March 1934.
7.0 cm of textual records
This series consists of seven hard cover bound registers recording student attendance in preliminary, first, second, and third year courses. In each register there is a separate record for each course. Each record lists the students in the class and notes their daily presence or absence, as well as the number of hours spent in lectures, recitations and labs. Five of the registers include exam results. Records for all classes, and therefore for all students, apparently have not survived. However, all years between 1914 and 1934 are represented, to a greater or lesser degree, in the records comprising this series.

05.000 Nursing service registers and daily time books. -- November 1905-31 December 1937.
26.5 cm of textual records

This series consists of 13 hard cover bound registers recording the time spent and type of duty performed by each student nurse in or on the various wards, floors, and departments of St. Bernard's Hotel Dieu hospital and noting absences and the reasons for absences from duty. In the first five registers there is a separate record for each student and these records are arranged chronologically by the date on which the student began active duty. The first three of these registers were titled "nursing service records" and documented only the day on which a student began a particular service. The next two registers (beginning in 1914) take the form of daily time books and document the students' attendance on a day to day basis. The last seven registers in the series take the form of daily time books as well, but each record, instead of concerning a single student, concerns a single month and documents each student's attendance during that month.

This series consists of a single hard cover bound register documenting admissions and withdrawals from the School of Nursing between 1962 and 1974. Each record in the register consists of a class list (beginning with the Class of 1965 and ending with the Class of 1975) which notes the date of entrance of the class, the date individual students completed the program, and the date individual students withdrew or were dismissed from the program. In the case of students leaving the School, the register notes the reason for their departure. The religious denomination of each non-Catholic student also is noted, but this appears to have been done by a secondary user. The entries fill only 31 pages of the 300 page register.

07.000  Photographs. -- 1919-[1975?].

247 photographs : b&w and col.
2 photograph albums

Most of the material comprising this series was transferred to St. Joseph Province Archives as part of Accession 92.40. The Archives, however, already possessed seven photographs depicting scenes at St. Bernard School of Nursing. These photographs originally had come from Chicago and subsequently were added to the present series.

This series contains photographs depicting events at St. Bernard School of Nursing from the time of its first graduation in 1909 until its closure in 1975. Most of the photographs -- largely taken to support press releases -- document the people associated with the School: the capping ceremony photographs show the students, their parents, the clergy and the sisters at various points before, after and during the ceremony. The graduation photographs are similar, although they depict only the ceremony itself. Most of the graduating classes are represented by posed class photographs or by wall montages. The series also includes photographs of the students at work in the hospital and off duty in their residence, and of students participating in Chicago's St. Patrick's Day parades, in St. Bernard Hospital's 50th anniversary, and in a School talent show. There also is a posed group photograph of graduate student nurses on retreat. There also are photographs of members of the School's Mother's Club and of Assistant Director Mary Lou Gunning. The photographs also document the construction of the 1928 School building, and provide views of the exteriors and interiors of both the first and second buildings.

Title based on contents of the series

Since the original order of the photographs was not apparent, the Archivist arranged them alphabetically by subject. In some cases, it was possible to reunite photographs of a single event taken by a single photographer. These photographs then were assigned a single subject category. Photographs belonging to Accession 92.40 are identified by Photo ID numbers SBSN-001P to SBSN-240P. Photographs transferred from St. Joseph Province Archives' Photograph Library are identified by Photo ID numbers SBSN-241P to SBSN-247P.

**08.000 Yearbooks. -- 1933, 1954, 1968-1974.**

13 cm of textual records

This series consists of a 1933 edition of The Loyolan (Loyola University's yearbook) and eight of the yearbooks produced by St. Bernard's School of Nursing. It is unlikely that the School produced more than these eight books.

Title based on contents of the series

The 1933 Loyolan was transferred to St. Joseph Province Archives as part of accession 92.40, originally having been donated to St. Bernard Community Archives on 15 July 1987 by Marie Verhy Conley (Class of 1933)

The Archivist brought the yearbooks together as a series and arranged them chronologically
