

MARCELLA NIEHOFF SCHOOL OF NURSING – CENTER FOR SIMULATION EDUCATION

The MNSON will open 2024/25 school year with an updated and modernized Simulation experience. The suite renovations include a 750 sq ft new simulation lab with a control room, sim lab, and debriefing room. Additionally, a new skills lab has been permanently located in the prior computer lab room 306. The existing suite 317 added a debriefing room, updated the Home Environment Room, updated the existing Simulation labs so that the latest communications software/audio/video will be implemented by the Nursing School for the students. The final component of the renovations was to dedicate a space for Virtual Reality equipment and use. Students can perform up to 25% of their clinical simulations via Virtual Reality. The renovations add needed simulation rooms and capacity of the program for the University.
