**About Loyola’s Single Sign-on (SSO)**

Loyola uses SSO: a service which allows users to provide their username and password once to a trusted service to have their identity securely and seamlessly provided to some of its web applications.

To Log Out: Close your browser. It is very important that you log out of SSO when you have finished using the computer, particularly if the computer is in a public place. If you don’t logout then subsequent users of the computer may be able to access applications as you.

**Login instructions:**

Use your Loyola UVID and password to connect. If you experience any problems, please clear your browser cache and try again.
6. Under Loyola University Courses you should now see a link for *Basics of Health Privacy for Clinicians*. Click on the link.
