Please Support Our Class Gift

The 2023 Class Gift is raising funds to support Stritch's Center for Community and Global Health's Global Health Equity Dinners. Matthew Weyenberg, our beloved classmate, was very passionate about these Dinners. Before his untimely passing last year, Matt organized the curriculum for two Dinners on the topic of decolonizing global health. The funds we raise together will help defray the cost of expanding the format of these Dinners.
