DEGREE
PROGRAMS

MARCELLA NIEHOFF SCHOOL OF NURSING

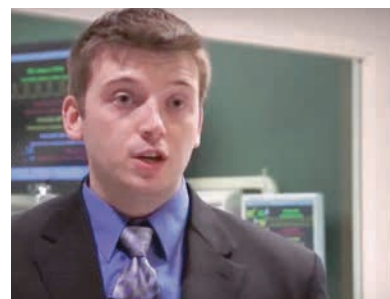

Leaders in Nursing and Health Studies

As you prepare for an exciting career in health care—one of the nation’s fastest-growing fields—you’ll benefit from the Marcella Niehoff School of Nursing’s tradition of excellence as you choose from one of three exciting majors in Nursing, Exercise Science, or Health Systems Management. Founded in 1935, Niehoff School of Nursing was the first baccalaureate nursing program in Illinois and has more than 7,000 alumni nationwide.

In conjunction with Loyola’s Jesuit ideals, we prepare nurses, fitness professionals, and health care administrators who are knowledgeable, caring, and competent practitioners, educators, administrators, and researchers in a range of academic undergraduate, graduate, doctoral, and certificate programs.

ALUMNI FOCUS

Jonathan

Major: Health Systems Management

Jonathan Winarski is confident that his Loyola Experience will help him stand out professionally. With his degree in Health Systems Management, Jonathan is well-prepared to apply skills of information management, quality improvement, and performance measurement to affect positive change in a variety of health care settings.

OPPORTUNITIES

Get on the fast track

Research in the Marcella Niehoff School of Nursing will keep you up to date in a complex and ever-changing health care world. In addition to a variety of clinical scenarios, you will practice in the Clinical Simulation Learning Laboratory, which will allow you to build confidence through practice in simulated clinical experience. Our Exercise Science program offers students a new state-of-the-art lab facility, where you'll get hands-on experience.

EXPERIENCES

Your career starts here

Thanks to Loyola's Chicago location, you will have access to numerous hospitals, health care systems, and health care organizations. Our extensive relationships with the city's health care providers facilitate numerous professional opportunities and diverse practicum sites.

PROGRAMS

Exercise Science BS

The Exercise Science degree opens the door for a career in the exercise science and health care arena, such as clinical exercise physiology, fitness, or a post-baccalaureate program like physical therapy. You will develop skills in evaluating risk factors, conducting fitness assessments, writing exercise prescriptions, and motivating individuals.

Health Systems Management BS

The Health Systems Management curriculum explores the structure of health systems, the policy environment, and management of health service organizations. The program integrates a variety of core competencies including finance, quality management, information systems, policy, ethics, and leadership.

Nursing* BSN

As a Bachelor of Science in Nursing student, you'll learn the science and skills required for a career in nursing and develop the ability to analyze complex health care situations, make sound clinical decisions, and deliver safe nursing care. You will practice in the Clinical Simulation Learning Laboratory, and complete clinical rotations in the Chicagoland area and finish your degree with a leadership practicum during your senior year.

Accelerated BSN* BSN

If you already possess a bachelor's degree or higher from an accredited university or college, you can acquire a BSN through our Accelerated Bachelor of Science in Nursing (ABSN) study option. Once the prerequisites are completed and you are admitted to the program, you will learn the science and skills to become eligible for licensure in just 16 months.

RN to BSN (online) BSN

If you have an associate degree in nursing (ADN) or a nursing diploma and are a licensed RN, you can earn your BSN through our online study option. The RN to BSN degree is designed for working professional nurses.

*Qualified students may take graduate-level nursing courses in their senior year through the Loyola University Master's Immersion in Nursing Program (LUMIN).
