At Loyola, you’ll be on the cutting edge of how teachers are prepared as you learn to foster collaboration with families and communities while promoting academic, social, and emotional growth.

All students are eligible to apply for an English as a Second Language (ESL) endorsement.

- Secondary Education (BS/MEd)
early 500 years ago, the Jesuits began a tradition that focused on working with people through education, regardless of their race or religion. At the beginning of the 21st century, Loyola’s School of Education continues this tradition, acknowledging our diverse, global society. Through fieldwork, internship, and research opportunities, you will actively learn about and contribute to the field of education. From your first semester, you’ll engage in hands-on experience in a variety of classrooms. This focus on fieldwork will set you apart once you graduate—you’ll have the confidence and the skills to be an effective teacher on your first day in the classroom.
Loyola’s School of Education offers a variety of teacher preparation programs to meet the varied career interests of education majors pursuing a BSEd.

Science majors who may be aspiring teachers can pursue one of our BS/MEd five-year degrees by pairing an undergraduate degree in biology, chemistry, or physics with a graduate degree in Secondary Education.

The 4 cornerstones
As a student in Loyola’s BSEd programs, your studies will be built around:

- Partnering with schools and communities
- Classroom diversity
- Professional learning communities
- Ongoing classroom experience

Your first career steps
The School of Education maintains strong partnerships with the Chicago Public Schools (the third largest school district in the country) and the Chicago Archdiocese Schools. These connections provide opportunities for student teaching, field experiences, and research to help you prepare for a career in education.

ACADEMIC FOCUS
The School of Education is accredited by the National Council for the Accreditation of Teacher Education (NCATE) now the Council for the Accreditation for Educator Preparation (CAEP) and the Illinois State Board of Education (ISBE). These accreditations ensure that you will be better prepared for licensing and advanced board licensure than students from non-accredited programs.
