EXERCISE SCIENCE (BS)
The Exercise Science Degree prepares students for exercise related fields where they will evaluate health behaviors and risk factors, conduct fitness assessments, write exercise prescriptions, and motivate individuals to modify negative health behaviors.

HEALTH SYSTEMS MANAGEMENT** (BS)
The Health Systems Management program explores the structures, policies, and management of health service organizations. Graduates are prepared for entry-level administrative positions in health care organizations.

NURSING* (BSN)
As a Bachelor of Science in Nursing student, you’ll learn the science and skills required for a career in nursing and develop the ability to analyze complex health care situations, make sound clinical decisions, and deliver safe nursing care.

ACCELERATED BSN*
If you already possess a bachelor’s degree or higher from an accredited university or college, you can acquire a BSN through our Accelerated Bachelor of Science in Nursing (ABS11) study option. Available in on-campus and hybrid learning options.

RN TO BSN ONLINE
If you have an associate degree in nursing (ADN) or a nursing diploma and are a licensed RN, you can earn your BSN through our online study option. The RN to BSN degree is designed for working professional nurses.

* Qualified students may take graduate-level nursing courses in their senior year through the Loyola University Master’s Immersion in Nursing Program (LUMIN).
** Qualified students may enter one of two accelerated master’s degree programs leading to the Master’s in Business Administration (MBA) or Master’s in Public Health (MPH)
Leaders in Nursing and Health Studies

As you prepare for an exciting career in health care—one of the nation’s fastest-growing fields—you’ll benefit from the Marcella Niehoff School of Nursing’s tradition of excellence. Founded in 1935, the Niehoff School of Nursing was the first baccalaureate nursing program in Illinois and has more than 7,000 alumni nationwide.

In conjunction with Loyola’s Jesuit ideals, we prepare nurses, fitness professionals, and health care administrators who are knowledgeable, caring, and competent practitioners, educators, administrators, and researchers in our academic undergraduate, master’s degree, doctoral, and certificate programs.
Building clinical skills

Research in the Marcella Niehoff School of Nursing will keep you up to date in a complex and ever-changing health care world. In addition to a variety of clinical scenarios, you will practice in the Clinical Simulation Learning Laboratory, which will allow you to build confidence through practice in simulated clinical experience. Our Exercise Science program offers students a new state-of-the-art lab facility, where you’ll get hands-on experience.

Professional development

Thanks to Loyola’s Chicago location, you will have access to numerous hospitals, health care systems, and health care organizations. Our extensive relationships with the city’s health care providers facilitate numerous professional opportunities and diverse practicum sites.

Jonathan Winarski

MAJOR: HEALTH SYSTEMS MANAGEMENT

Jonathan Winarski is confident that his Loyola Experience helped him stand out professionally. With his degree in Health Systems Management, Jonathan was well-prepared to apply skills of information management, quality improvement, and performance measurement to affect positive change in a variety of health care settings.
OUR MISSION

We are Chicago’s Jesuit, Catholic University—a diverse community seeking God in all things and working to expand knowledge in the service of humanity through learning, justice, and faith.

LOYOLA UNIVERSITY CHICAGO

Loyola University Chicago admits students without regard to their race, color, sex, age, national or ethnic origin, religion, sexual orientation, ancestry, military discharge or status, marital status, parental status, or any other protected status. Otherwise qualified persons are not subject to discrimination on the basis of disability.

Loyola is an equal opportunity educator and employer.
