# PRE-PROFESSIONAL PROGRAMS

Are you thinking about becoming a doctor, a lawyer, or an engineer?

At Loyola, we have a number of academic programs offered at the undergraduate level to prepare you for your professional career. Our pre-professional programs include pre-health and pre-law. In addition to Loyola's Engineering Science degrees, we also offer a dual degree program in Engineering with partner universities.

# PRE-PROFESSIONAL PROGRAMS

## PRE-HEALTH ADVISING

LUC.edu/prehealth

Loyola offers an extensive professional advising program for students interested in pursuing health professional careers. If you're considering a health profession, Pre-Health Advising within Career Services can help guide you on your quest. Some of the services available to you include one-on-one pre-health professional advising; a variety of workshops to help prepare you for health professional school interviews and application processes; and access to the Pre-Health Newsletter and Pre-Health Professions Committee process, if eligible. The Committee is comprised of advising staff, Loyola faculty, and other staff members providing a series of workshops and advising to help guide you as you prepare to apply to professional schools.

### DUAL-ACCEPTANCE PHARMACY (DAP) PROGRAM

Loyola and the Chicago College of Pharmacy of Midwestern University offer incoming freshmen an opportunity to assure themselves a spot in a professional pharmacy program. Once accepted to both programs, students will complete two years of prerequisites at Loyola, then matriculate to the Chicago College of Pharmacy to begin the three-year Doctor of Pharmacy program.

### LUC MENTORS

LUC Mentors is a program committed to helping undergraduate students explore the path to becoming a physician through one of three different mentoring programs, led by the 1st-4th year medical students at Loyola's Stritch School of Medicine.

## PRE-LAW

LUC.edu/prelaw

Specialized career development and law-school application advising is also available for Pre-Law students. Pre-Law Advising through Career Services also coordinates information sessions and on-campus programming with the Pre-Law Society student group, and publishes a monthly e-newsletter for Pre-Law students. Students may also participate in a relevant academic internship\* in and around Chicago. In doing so, they'll earn course credit and gain real-world experience at law firms, government agencies, and nonprofits.

Loyola permits a limited number of well-qualified students to enter the Loyola University School of Law after completing their junior year, via a competitive application process. In recent years, the average Law School Admission Test scores and acceptance rates of Loyola Seniors into law school have remained well above the national average. Our students have been admitted to more than 150 law schools, with a sizable number securing admission into many of the "Best Law Schools," including 21 of the top 25 institutions as ranked by *U.S. News and World Report*.

*\*must enroll in a qualifying course during the internship semester*

## DUAL-DEGREE ENGINEERING

LUC.edu/physics

Loyola's BS in Engineering Science allows students a chance to specialize in Biomedical, Computer or Environmental Engineering. For students interested in another engineering specialization we recommend the Dual-Degree Engineering program in the Physics Department. In this unique program, you will earn two baccalaureate degrees: a Bachelor of Science in Physics from Loyola and a Bachelor of Science in Engineering from an affiliated engineering school. Typically, three years of study in the social sciences, humanities, mathematics, and physical sciences here are encouraged, followed by two years of concentrated engineering studies at the school of engineering.

In the recent past, students have gone to University of Illinois Urbana Champaign, University of Illinois at Chicago, Washington University in St. Louis, Northwestern University, University of Michigan, Columbia University, and Iowa State University to complete their engineering studies.

## FIVE TIPS

FOR PRE-LAW STUDENTS

CHOOSE A MAJOR THAT INTERESTS YOU

CONNECT WITH A FEW OF YOUR PROFESSORS

DO A LAW-RELATED INTERNSHIP

GET INVOLVED OUTSIDE THE CLASSROOM

PREPARE CAREFULLY FOR THE LSAT
